Our Toll Road and Motorway network has increased massively since 1995. But do they work or just simply worsen traffic congestion?

The M4, M5 and M7 are very busy traffic corridors. There is a cash back scheme in place for the residents of the South West of Sydney.

Why don't the residents of the North West have a similar scheme?

Why wasn't the Lane Cove Tunnel built with ventilation stacks?

Why is Epping Road now a cart track?

The combined tolls on the M2 and Lane Cove Tunnel are very expensive.

These roads were supposed to ease traffic congestion. Instead all the residents of Pittwater, Lane Cove and Epping Roads have got is a worse quality of life with this traffic gridlock.

All this occurs and the urgent improvements and expansion of our Railways goes unchecked. The North West of Sydney is in urgent need of more than one new Railway Line.

Clearly, the solutions lie not in more roads being constructed, but new Railway Lines to take the pressure off the road network.

The Ryde Electorate is at chocking point with traffic congestion.

Our electorate needs to clear the air.

After 13 years of Labor rule, the electors of Ryde deserve a better delivery of service and now it is TIME FOR A CHANGE.
